Sell with clarity.
Run with confidence.

From the first quotation to the final payment, keep sales, customers and stock connected in one workspace.

Original platform design reference; sample data. AI-generated device scene.

Quote & sell

Prepare quotations, manage orders and create invoices.

Know your stock

Keep products, purchases and inventory within reach.

Stay in control

Track payments, review reports and manage access.

FROM ENQUIRY TO PAYMENT

Quote. Sell. Collect.

Give your team a connected workflow for everyday sales and customer follow-up.

Original platform design reference; fictional sales records. AI-generated scene.

01 Prepare a quotation

Build customer quotations with products, pricing and document templates.

02 Create the sale

Bring quotation details into the sales workflow and manage drafts or confirmed sales.

03 Deliver the invoice

Generate invoice PDFs, download copies and send them to customers by email.

04 Record payments

Add payment entries and review collected amounts and remaining balances.

THE WORK BEHIND EVERY SALE

Keep the details connected.

Manage the products, people and purchasing records that support your sales operation.

Original platform design reference; sample stock data. AI-generated scene.

01

Products & categories

Organise your catalogue and group products into meaningful categories.

02

Inventory & damages

Review stock records and track damaged or wasted items.

03

Purchases & suppliers

Maintain supplier details and manage purchase documents, drafts and requests.

04

Customers & orders

Keep customer information and order records available alongside your sales.

A CLEARER VIEW OF THE BUSINESS

Stay informed. Move forward.

Bring the wider team into the same sales workspace, with access suited to their work.

01

Dashboard & reports

Review your sales workspace through a dedicated dashboard and business reports.

02

Staff & roles

Manage staff records and control access through roles and permissions.

03

Service cases

Keep customer service cases accessible within the sales platform.

04

Notes & messages

Keep working notes and access messages from your sales workspace.

A workflow built around your business.

Bring your product list, a sample quotation and an invoice.
Explore how your team can manage the journey from sale to collection.

See your sales workflow in action.
