SIGNAGE PRO

by ExploreSoul Technologies

Turn every screen into an opportunity.

Create striking content, organise playlists and schedule what plays on your displays, all from one workspace.

Original editor design reference; sample content. AI-generated cafe scene.

Create the content

Design menus, promotions and announcements with the visual editor.

Plan the playback

Build playlists and set the dates, times and target displays.

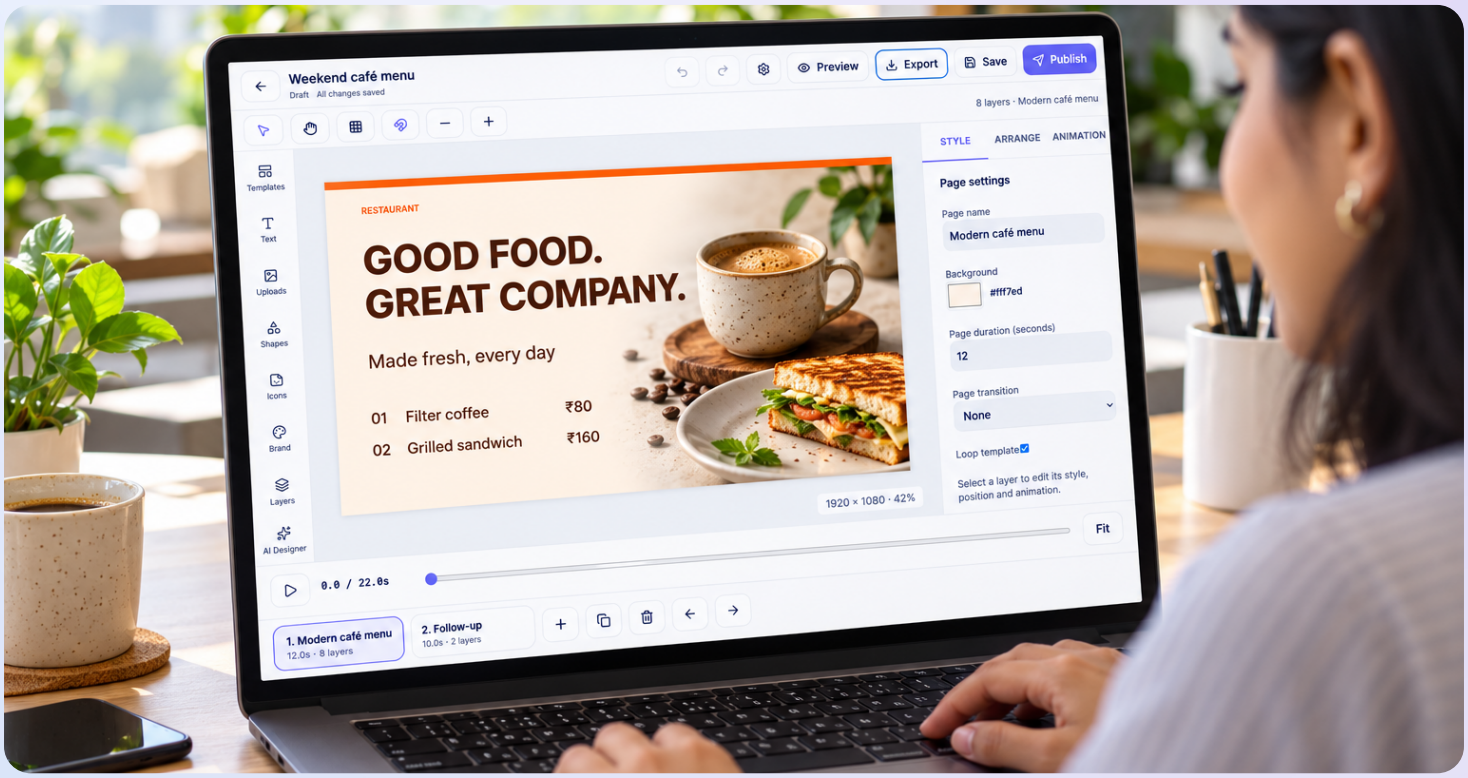

Bring it to screens

Publish your content for playback on compatible signage displays.

MAKE THE MESSAGE YOUR OWN

Design. Arrange. Animate.

Build content that suits your space, your brand and the message you want people to see.

Original editor layout reference; sample menu and pricing. AI-generated scene.

01 Start with a template

Choose a design or start with a blank canvas, then customise it for your business.

02 Make it your own

Work with text, uploaded media, shapes, icons and brand elements in the visual editor.

03 Build the layout

Arrange full-screen content or use layout presets to divide the canvas into regions.

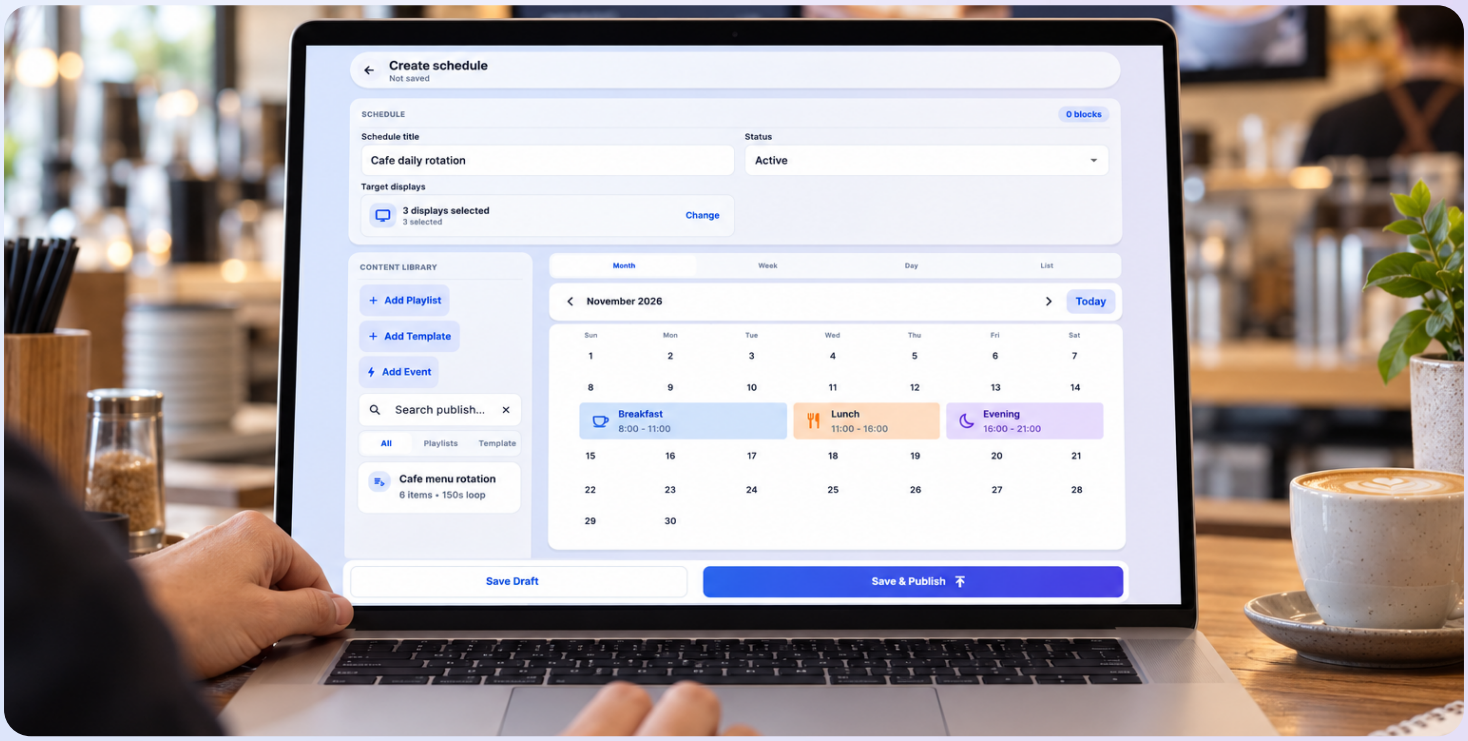

04 Set the presentation

Adjust page duration, transitions and animation, then preview before publishing.

THE RIGHT MESSAGE AT THE RIGHT TIME

Plan it once. Keep it moving.

Coordinate your content across displays with playlists and a visual scheduling calendar.

Original scheduler design reference; fictional schedule and displays. AI-generated scene.

01

Organise your media

Keep images, videos and other media in a content library for your signage workflow.

02

Build playlists

Bring content together into a playback sequence for menus, offers or announcements.

03

Schedule by calendar

Set dates and times, work with repeat days, and review month, week, day or list views.

04

Choose the displays

Select target displays and publish the schedule to the screens that need the message.

FROM YOUR WORKSPACE TO YOUR AUDIENCE

One platform. Many possibilities.

Use digital signage for the everyday moments when a clear message makes a difference.

01

Menus & promotions

Present food menus, seasonal offers and new arrivals in cafes, restaurants and stores.

02

Visitor communication

Show welcome messages, event details and announcements in offices and venues.

03

Landscape & portrait

Prepare content for your display orientation and confirm the layout before publishing.

04

Samsung Tizen player

Use Signage Pro on compatible Samsung Tizen signage displays, with setup matched to the model.

Bring your content. See it on screen.

Share your screen model, orientation and a sample campaign.
Explore the workflow from design and playlists to scheduled playback.

Make your next message stand out.
